10-yr old becomes web developer and started RedCode to teach others

Saksh a student of KV No.2 Jalahalli from the young age of 8, loved mobile, laptop & coding. Eventually, his love of coding became **RedCode**.

Now Saksh started helping the others in learning the coding through his website **www.RedCode.co.in**

He also not taken any fees from the poor and needy children.

His future plan is to expand the **RedCode** for the needy and poor children in all over the world.
